D4 Informatics Engineering student at Politeknik Negeri Jakarta with an interest in website and application development. Having experience in joining the Kelompok Studi Mahasiswa (KSM) in the website division, where I have honed my technical and collaborative skills in the development of web projects. I am passionate about the world of websites and software development, and wish to further develop my knowledge and skills through an independent study program. I hope to contribute to innovation and technological advancement in this field, particularly in the development of innovative and efficient web and software solutions.

EDUCATION

Politeknik Negeri Jakarta

2022 - Present

Diploma IV in Informatics Engineering

- GPA: 3,74 / 4,00
